PROFESSIONAL SUMMARY

Aspiring Full Stack Web Developer with hands-on experience in building web applications using Python, Django, HTML, CSS, JavaScript. Skilled in developing responsive interfaces, backend APIs, and database-driven applications through real-world projects. Passionate about clean coding and learning modern web technologies.

SKILLS

Frontend: HTML5, CSS3, JS, React.js, Bootstrap

Backend: Python, Django

Databases: MySQL, SQLite, MongoDB

Tools & Platforms: Git, GitHub

PROJECTS

Event & Artist Management System

Developed a web application using Python, Django, HTML, and CSS that allows users to book artists and manage event services. The system includes user registration, admin approval for artists and event managers, and an admin dashboard to manage bookings and users.

Stationery E-Commerce Website

Technologies: Django, HTML, CSS, SQLite
Developed an online stationery store with product listing and management features. Implemented backend functionality using the Django framework. Designed responsive and user-friendly web pages using HTML and CSS.

Personal Portfolio Website

Developed a responsive personal portfolio website using HTML, CSS, and JavaScript to showcase projects, skills, and contact information with a clean and user-friendly design.
